

FAIZA FAISAL

AI Engineer | Agentic AI & Multi-Agent Systems Specialist | Full Stack Developer

Karachi, Pakistan | +92 335 2276668 | faizafaysalgenda@gmail.com
[LinkedIn Profile](#) | [GitHub Portfolio](#)

Innovative AI Engineer specializing in **Agentic AI** and Multi-Agent Systems. Expert in building autonomous workflows, intelligent task routing, and scalable web applications using Next.js and FastAPI. Focused on high-impact AI automation and production-ready systems.

TECHNICAL SKILLS

Agentic AI	Multi-Agent Systems, RAG, Prompt Engineering, OpenAI/Claude SDKs, MCP Servers, Tool Calling
Frontend	React.js, Next.js, TypeScript, Tailwind CSS, ShadCN UI, Responsive Web Design
Backend	FastAPI (Python), REST APIs, Microservices, JWT/OAuth, Kafka, SQL/NoSQL Databases
DevOps & Tools	Docker, Kubernetes, Firebase, Git/GitHub, CI/CD, API Documentation (Docusaurus)

FEATURED PROJECTS

Agentic AI Multi-Agent System (MAS)

- Designed autonomous architecture with "AI Employees" for complex business automation.
- Implemented intelligent task routing that dynamically assigns agents based on user intent.
- Developed real-time interaction modules using streaming and tool-calling capabilities.

RAG-Powered Chatbot Platform

- Built a full-stack conversational platform using Retrieval-Augmented Generation for context awareness.
- Optimized data retrieval pipelines with FastAPI and integrated advanced LLM orchestration.

PROFESSIONAL EXPERIENCE

AI & Web Developer (Independent / Freelance)

2024 – Present

- Architected and deployed high-performance AI web apps and autonomous workflow agents.
- Consulted on business automation using Agentic AI to replace repetitive manual tasks.
- Developed custom MCP servers to bridge LLMs with proprietary data and external APIs.

EDUCATION

Governor Sindh Initiative for AI & Computing (GIAIC)

2024 – Present

Specialization in AI Engineering, Agentic AI, and Full Stack Development

CORE COMPETENCIES

- AI Architecture:** Designing robust multi-agent systems and scalable cloud-native apps.
- Problem Solving:** Expertise in system design and microservices orchestration.
- Agile:** Fast-paced development with clean, documented code.
- Languages:** English (Professional), Urdu (Native).
